CONTINUE CHOPPY

Quite a Rise in Prices During the Week and Considerable Profit-Taking.

rumors that the directing control of Nor-folk & Western was to revert to that sys-tem through the medium of the Pittsburg, Cincinnati, Chicago & St. Louis. The statistics for November of the Copper Producers' association lacked stimulating influence. The nominal decrease in stocks in the hands of producers resulted from a reduction in output, the deliveries for consumption and export falling slightly below those for October in spite of the below those for October in spite of the stimulating rumor of a combination of producers to restrict the output which nlivened the market for copper early in

Estimates of the week's currency movement showed the strong counter currents still in force. The express movement with the interior has yielded a heavy balance in favor of New York, enough, it is supposed, to leave a small net gain in cash for the banks after allowing for the \$469,000 absorption of the sub-treasury operations and \$1,700,000 of gold exports. The sustaining firmness of foreign exchange in spite of this week's reduction of the Bank of England discount rate indicates a continuance of the outgo of gold to South America from New York. The expected St. Paul financing appeared today in the announcement of the sale of \$25,000,000 of general mortgage 4 per cent Estimates of the week's currency move-\$25,000,000 of general mortgage 4 per cent

GRAIN AND PROVISIONS.

Chicago, Dec. 10.—Domestic conditions supplanted the Argentine situation with traders in the wheat pit here today and held the market remarkably strong. The crop expert of a local concern who is now in that country claimed the damage was unimportant. Continued light receipts chiefly caused the firmness manifested throughout the session. The total movement was estimated at 282,000 bushels, as against 638,000 bushels the corresponding day a year ago. A bulge of more than 1c in corn and an almost equally sharp advance in oats stimulated considerable demand for wheat and reports of free buying of cash wheat in the morthwest by millers also augmented demand here. The future deliveries displayed greater strength than the December option and during the day May sold between 1.68% and 1.90. December ranged between 1.68% and 1.90. While May was \$50.00 to the content of the co one hundred two (192) roots to place of be-ginning, containing nineteen and twelve-hundredths (19.12) acres, more or less, said tract being contained within the limits of the S. W. quarter and lot No. six in said section thirty-five (35), has been set for hearing on Friday, the 24th day of December, A. D. 1909, at 2 o'clock p. m., at the county court house, in the court lay on December was between 58% and 64%, and for May between 62½ and 64%. Trading in oats was active and the market was strong. The close was at the op, with December at 43% and May at 43%. Provisions closed 5 to 22½ higher.

The leading futures ranged as follows:

No whiskey made even approaches the uniform excellence of Old James E. Pepper. Possessing, as we do, the original formula of Old Elijah Pepper; adding to this over 128 years of continuous experience; and taking note of the fact that our inclination is always to produce the best, you can understand why

James E. Pepper Whiskey

has never been equaled in quality by any living man. If you yearn for fine whiskey and want to be certain of getting it, we trust to your discriminating judgment to see that you are not imposed upon by a miserable imitation of Old James E.
